

Specialists from OPENTRUST are available to help you set up **OPENTRUST-PAM**. Our wide range of services proposed includes:

- installation, implementation and configuration of OpenTrust-PAM
- connection to your directory
- transfer of skills
- integration into your environment

Taking out a maintenance and support contract gives you VIP access to our help desk as well as free OpenTrust-PAM updates.

A special *University edition of OpenTrust-PAM*, designed to give students and teachers remote access to electronic documents, is also available. Resources currently documented on this platform are enriched with the addition of each new customer.
